

GET THE JOB DONE WITH TRASH TAXI

I'm Dave, and I am the General Manager of Trash Taxi of Georgia. When you need a waste partner you can rely on, you call Trash Taxi because you're going to deal with me. I've been in the business eight years and there's not much that surprises me anymore. I understand what it takes to get the job done at the best price, while at the same time, ensuring reliable service. Whether you need us to leave a dumpster on-site for a bathroom remodel, or to live load your big demolition job, Trash Taxi's going to do the job right. That's my guarantee.

Dave Swierenga, General Manager
Trash Taxi of Georgia

WE'VE GOT THE DUMPSTER FOR YOUR JOB

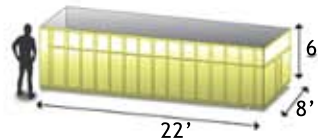

10 yard

A 10 yard dumpster can hold 10 cubic yards of waste. Common dumpster dimensions are: 12 ft. long by 8 ft. wide by 4 ft. high. There's no perfect way to choose dumpster sizes, but a 10 yard dumpster may be appropriate for a small basement or garage cleanout; removing a 250 sq. ft deck; removing 1500 sq. ft. of single layer roof shingles; yard debris cleanup, or a small kitchen & bath remodeling job.

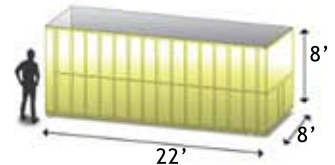

20 yard

The 20 yard roll off dumpster is ideal for smaller sized jobs. Common dumpster dimensions are: 22' x 8' x 4' (dimensions may vary from unit to unit). This size is appropriate for reflooring or carpeting a large home, removing a 400 sq. ft deck, 2500 sq. ft. of single layer roof shingles, remodeling a kitchen, or a small addition to a home. There is no weight limit on natural waste, but c&d is limited to 4 tons.

30 yard

A 30 yard dumpster holds 30 cubic yards of waste. Common dumpster dimensions are: 22 ft. long by 8 ft. wide by 6 ft. high (remember, dumpster sizes can vary, so ask your local roll off dumpster service). A 30 yard dumpster may be the right dumpster size for a major home addition; construction of a new home; demolition of a garage; or entire house window or siding replacement for a small to medium size home.

40 yard

A 40 yard dumpster holds 40 cubic yards of waste. Common dumpster dimensions for a 40 yard dumpster are: 22 ft. long by 8 ft. wide by 8 ft. high. A 40 yard dumpster may be appropriate for window or siding replacement for a large home; commercial roof tear off; commercial cleanout; new construction or major addition; large amount of trash, paper, or cardboard.

*Other dumpster sizes are also available.

Trash Taxi guarantees the same great service and great price to every customer,

NO MATTER HOW BIG OR SMALL YOUR HAUL.
